

SKUDO GLASS ADVANCED

Skudo Glass Advanced is the perfect solution for all construction projects that require temporary window and glass protection from start to finish. Tough enough to withstand cement and paint splatter, Skudo Glass Advanced will protect valuable glass and frames for up to 12 months.

PRODUCT DATA

Dimensions	Product SKU
20L Pail	SKUDOGA

BENEFITS

- Resists job site spills and splatter, including cement, paint and stucco
- Can be applied at manufacturer to provide protection during transit
- Fire Resistant to withstand welding and grinding sparks
- Simple application with spray or roller
- Easy peel off removal
- Available in transparent or tinted (opaque) finish

USES

Skudo Glass Advanced can be applied to:

- Glass, windows, curtain walls, panels and balustrades
- Some metals, such as stainless steel and aluminum
- Cladding

Skudo Glass Advanced is not suitable to be applied on acrylic surfaces, but it can be used on 'Low-e' (low emissivity) glass.

APPLICATION AND REMOVAL

Skudo Glass Advanced is easily applied by roller or sprayer. 1L will cover up to 5m². Two coats should be applied for best results. Drying time will take 2-4 hours, but can vary according to the relative humidity and ambient temperature air flow. Maximum strength will be achieved in 3 days.

After 3 days and up to 12 months after application, Skudo Glass Advanced can be removed. Simply peel it off to reveal a clean, undamaged surface with no residue.
